

Resurrection

Brookside

Resurrection Brookside at Historic Central launched in December 2022 as Resurrection's sixth physical location. God is doing something incredible in this community and it continues to grow. We want to ensure that we have the right tools so that we are a place where all generations are welcome.

Statistical analysis of the population within a three-mile radius of the church shows that within the next five years, Generation Z (born between 1997 - 2021) will become the largest segment of the population. As the community continues to welcome more families with young children, now is our chance to signal to the community that we are a place where they belong.

We long to create an outdoor space where community happens for children and adults, a space that is open and welcoming to all our neighbors. Our current outdoor space has not been renovated for more than 25 years. We want to update the play equipment and the landscaping, so it not only ensures safety for children but is a visible witness to all who pass our church that we prioritize children.

What's Next?

We hope to raise \$500,000 in a one-year campaign for this renovation project through sacrificial gifts from our congregation above and beyond the annual ministry fund gifts. The funds would be used to:

- Purchase new playground equipment
- Install safe ground covering
- Update landscaping
- Construct new fencing
- Create welcoming signage and an area for families and caregivers to gather with children

Sample of playground equipment. Reveal of the entire playground in worship on September 17 at Brookside.

We have an opportunity to signal to the community through the building of a new playground that this is a place where children and families are welcome, a place where all can experience joy and laughter. It is an investment that will change lives for generations to come.

Accomplishing this will require sacrificial giving from every person in the church and I am asking you to join me and Scott in making a genuine financial sacrifice in this next year.
